MURD

Master of Urban and Regional Development

International School of Urban Sciences, the University of Seoul
In cooperation with Korea International Cooperation Agency

ISUS

‘Truth’, ‘Creation’, and ‘Service’ Seoul’s Global University

Kun LEE

President, University of Seoul

The University of Seoul was founded in 1918 and has provided higher education opportunities for the intelligent, motivated, and creative scholars. As a public institution, the University of Seoul is committed to addressing the social, regional, technological, and creative issues of the urbanized world. It has thus dedicated itself to cultivating leaders who will shape the urban future of Korea and the world. Its faculty, students, and administrative body are also distinguished by a commitment to civic values and a dynamic urban civilization.

The University of Seoul insists on quality and breadth. It is committed to both theory and practice, and endorses an openness towards students and Korea's noticeable institutions. With more than 10,000 students enrolled, the University of Seoul consists of seven undergraduate colleges and almost 90 fields of study in the Graduate School. With diverse and specific programs that integrate research and policy, practice and education, the University of Seoul seeks a balance between academic and professional concerns, between visionary goals and practical research. Along with basic research, the University of Seoul functions as a think-tank in formulating and supporting the major policy goals of the Seoul Metropolitan Government.

In this sense, the International School of Urban Sciences has maintained a dominant position in a field of urban sciences. These range from environmental and civic engineering, architecture, urban planning and landscape design to public law and administration, taxation science, economics, urban sociology and management. With Korea's largest and finest group of human and informational resources focused on the future of the world's city, it boasts a unique array of research institutions working on the solutions to its problems and creative visions for its future.

Hub of 'International Networking' for Global Experts

Man Hee HAN

Dean of ISUS, University of Seoul

The International School of Urban Sciences (ISUS) of the University of Seoul (UOS) was launched in Spring 2013 in an effort to contribute to the development of sustainable urban communities in the world through an interdisciplinary program of teaching, research, and outreach. ISUS offers two graduate programs in global construction management and sustainable urban & regional development to seek an interdisciplinary, engaged learning environment in which students from various fields acquire the knowledge and professional skills necessary for becoming leading practitioners in the global urban and regional profession.

In addition to the regular graduate programs, ISUS created the International Urban Development Program (IUDP) in cooperation with partner agencies and institutions in order to share Korea's achievement in urban and regional development with scholars and practitioners from the world. Each year, IUDP invites about 20 government officials from Seoul's global partner cities for a master degree program, Master of Urban Administration and Planning (MUAP) in cooperation with Seoul Metropolitan Government.

Recently, ISUS develops another sponsored graduate degree program in urban and regional development (MURD) in partnership with the Korea International Cooperation Agency (KOICA) for government officials from KOICA's partner countries. These sponsored graduate programs are expected to contribute to the sustainable development in developing countries by providing the academic and professional skills necessary for working in the particular contexts of partner countries. We hope many public officials from the world will be able to take this great opportunity. Thank you.

I. Program Overview

■ **Program Title:** Master of Urban and Regional Development (MURD)

■ **Duration:** August 17, 2015 ~ December 22, 2016 (16 Months)

■ Objectives

- To provide theoretical and practical education that can enable government officials from KOICA's partner countries to formulate a long-term national comprehensive plan for territory development
- To enhance program participants' knowledge and experiences in the field of urban and regional development including master planning, land use planning, real estate and housing development, urban redevelopment, new town development, etc.
- To develop program participants' capacity to manage infrastructure development projects for their own countries
- To provide program participants with opportunities to develop cooperative relationships and personal networks with scholars, professionals, and government officials from Korea and other countries

■ Training Institute

- **International School of Urban Sciences, University of Seoul** (<http://isus.uos.ac.kr>) in cooperation with the following Korean research and development agencies:
 - * **Korea Research Institute for Human Settlements (KRIHS):** In October 1978, the Korea Research Institute for Human Settlements (KRIHS) was established to address spatial policy issues of Korea. The main tasks of KRIHS are to develop long-term and short-term plans and policies to lead to more efficient use of land resources and to restructure imbalanced spatial structures. KRIHS carries out various research projects in the areas of national territorial development, environment, regional and urban development, infrastructure, land use, transportation and geographical information system.
 - * **Korea Land & Housing Corporation (LH):** LH was established to spearhead the improvement of the quality of life and development of the national economy through the realization of stable housing for the country's citizens and the efficient utilization of the national land. LH's organization consists of HQs (9 divisions, 1 research institute, and 47 departments), 12 regional HQs, and 21 project divisions. Its 6,100 staff members specializing in land and housing are striving to systematically implement national land and housing policies.

■ **Language:** English

■ **Cost:** Full - Ride Scholarship with a Monthly Stipend will be provided.
